MDR 079555 PWS	Austar Coal Mine Pty Ltd	Middle Road, PAXTON NSW 2325	2/07/2009	n/a Existing items only. New items cannot be supplied.	No. 1 Shaft Koepe friction Powered Winding System at Austar Colliery consisting of: a personnel cage, a counter weight, a 37.5kW motor coupled through a gearbox to a winding drum with interconnecting control and safety devices, four 16mm head ropes c/w attachments; a 30mm balance rope c/w attachments, two hydraulically released spring applied breaking systems for service and emergency braking attached directly to each side of the winder drum. This powered winding system is rated at, 1080 kg, 9 men @120kg/Person, @2.67m/s.	A. Goninan & Co Pty Ltd	Serial Number 6277/77
MDR 079556 PWS 1	Austar Coal Mine Pty Ltd	Middle Road, PAXTON NSW 2325	5/04/2011	n/a Existing items only. New items cannot be supplied.	Men and Materials Drift Powered Winding System at Austar Colliery consisting of; 375kW Goninan drum winder, 43mm diameter rope c/w with attachments; man riding conveyances and other materials conveyances. This powered winding system is rated at; 54 tonne live load @ max 1.8m/s; and 56 men @ 3.6m/s	A. Goninan & Co Pty Ltd	Serial Number. 6278/77
MDR 113706 PWS 1	Australian Winch & Haulage Company Pty Ltd	227 Woodpark Road, SMITHFIELD 2164	2/03/2012	n/a Existing items only. New items cannot be supplied.	Australian Winch and Haulage Co. Pty. Ltd Shaft Sinking Winder – Staging Winder, consisting of two single drum winders WH016 & WH017 hydraulically driven two Power Packs, PEH006 and PEH007. Braking is via two brake paths directly attached to the drum with a single band brake on each brake path. A stage is attached to the winders by 2 28mm 35x7 Compacted Grade 1960 MPa ropes complete with attachments. As is identified by registration number MDR 113706 PWS-1 (file 11/3706) and listed documents herein. This powered winding system is rated at; 7.9 tonnes @ 0.167 m/s	Australian Winch and Haulage Co. Pty. Ltd.	Model Nos WHO16 and WHO17

MDR 115088 PWS-1	Australian Winch & Haulage Company Pty Ltd	227 Woodpark Road, SMITHFIELD 2164	2/03/2012	n/a Existing items only. New items cannot be supplied.	Australian Winch and Haulage Co. Pty. Ltd Shaft Sinking Winder – Kibble Winder, consisting of a single drum winder WH042 hydraulically driven incorporating two off 110 kW Power Packs, PEH006 and PEH007. Braking is via two brake paths directly attached to the drum with two disc callipers on each brake disc. A kibble is attached to the winder by a 26mm 35x7 Hyflex Preformed 2070 MPa rope complete with attachments. As is identified by registration number MDR 115088 PWS-1 (file 11/5088) and listed documents herein. This powered winding system is rated at; 5 tonnes at 2 m/s.	Australian Winch and Haulage Co. Pty. Ltd.	Model No WH042
MDR 079483 PWS	Centennial Angus Place Pty Ltd	Wolgan Road LIDSDALE NSW 2790	25/03/2011	n/a Existing items only. New items cannot be supplied.	Men and Materials Drift Powered Winfind System at Angus Place Colliery consisting of; 375kW motor, a 60.1:1 reduction gearbox and winding drum, Goninan drum winder, 52mm diameter rope c/w with attachments; man riding conveyances and other material conveyances as identified by registration number MDR 079483 PWS (file 07/9483)	A. Goninan & Co Pty Ltd	Serial No. 3910/75
MDR 079619 PWS	Centennial Coal Pty Ltd Trading as: Clarence Colliery		4/07/2011	n/a Existing items only. New items cannot be supplied.	Men and Materials Drift Powered Winding System at Clarence Colliery consisting of; 487kW drum winder, 45 mm diameter rope c/w with attachments; man riding conveyances and other materials conveyances as identified by registration number MDR 079619 PWS	A. Goninan & Co Pty Ltd	Serial Number 2055/78

Registration No.	Registration Owner	Address	Dates of Registration	Dates of Expiry	Description of Item	Make	Model
MDR 079620 PWS	Centennial Coal Pty Ltd Trading as: Clarence Colliery		4/07/2011	n/a Existing items only. New items cannot be supplied.	Men and Materials Conveyor Drift Powered Winding System at Clarence Colliery consisting of; 30kW RELIANCE manufactured motor driving through a Flender SDN320 manufactured gearbox to a winding drum. It has a high speed brake between the motor and gearbox and a low speed brake fitted to the winding drum. A 16mm rope c/w with attachments connects the winder drum to the man riding conveyances as identified by registration number MDR 079620 PWS	Fox Manufacturing Co. Pty Ltd	Plant Identification No. RH301
MDR 089208 PWS	Centennial Mannering Pty Ltd	Rutleys Road, DOYALSON NSW 2262	2/07/2009	n/a Existing items only. New items cannot be supplied.	Men and Materials Conveyor Drift Powered Winding System at Mannering Colliery consisting of; 120kW Hexham Engineering Pty Ltd drum winder, 26mm diameter rope c/w with attachments; man riding conveyance and other material conveyance. This powered winding system is rated at; 12 tonne live load @ max 2.5m/s; and 24 men, 7.124 Tonne @ max 2.5m/s.	Hexham Engineering Pty Ltd	Not stated
MDR 089210 PWS	Centennial Mannering Pty Ltd	Rutleys Road, DOYALSON NSW 2262	2/07/2009	n/a Existing items only. New items cannot be supplied.	Men and Materials Drift Powered Winding System at Mannering Colliery consisting of; 550kW Anderson Rea Pty Ltd drum winder, 52mm diameter rope c/w with attachments; man riding conveyances and other materials conveyances. This powered winding system is rated at; 80 tonne live load @ max 2.0m/s; and 56 men @ 4.0m/s.	Anderson Rea Pty Ltd	MDA: WIS-9031
MDR 078399 PWS	Centennial Myuna Pty Ltd	Wangi Point Road, WANGI WANGI NSW 2267	16/03/2009	n/a Existing items only. New items cannot be supplied.	Men and Materials Drift Powered Winding System at Myuna Colliery consisting of; 750kW Goninan drum winder, 52mm diameter rope c/w with attachments; man riding conveyances and other materials conveyances	A. Goninan & Co Pty Ltd	Serial Number 3800\80

Registration No.	Registration Owner	Address	Dates of Registration	Dates of Expiry	Description of Item	Make	Model
MDR 079471 PWS	Centennial Myuna Pty Ltd	Wangi Point Road, WANGI WANGI NSW 2267	16/03/2009	n/a Existing items only. New items cannot be supplied.	Conveyor Drift Winding System at Myuna Colliery consisting of; 82kW Goninan drum winder, 20mm diameter rope c/w with attachments; man riding conveyance and other materials conveyance	A. Goninan & Co Pty Ltd	Serial Number 9303\82
MDR 093919 PWS	Delta Mining Pty Ltd	Medway Road, MEDWAY NSW 2577	25/09/2009	n/a Existing items only. New items cannot be supplied.	Men and Materials Drift Powered Winding System at Berrima Colliery consisting of; 97kW Hexham Engineering drum winder, 24mm diameter rope c/w attachments; man riding conveyances and other materials conveyances	Hexham Engineering Pty Ltd	Drift Haulage
MDR 078882 PWS-1	Endeavour Coal Pty Ltd	Douglas Park Drive, DOUGLAS PARK NSW 2569	30/03/2010	n/a Existing items only. New items cannot be supplied.	Men and Materials Drift Powered Winding System at Appin East Colliery consisting of; 746kW Noyes / Perry drum winder, 48mm diameter rope c/w with attachments; man riding conveyances and other materials conveyances	Noyes / Perry	Unknown
MDR 078885 PWS	Endeavour Coal Pty Ltd	Douglas Park Drive, DOUGLAS PARK NSW 2569	18/12/2009	n/a Existing items only. New items cannot be supplied.	Man and Materials Friction Powered Winding System at Appin West Colliery consisting of a 746 kW DC Motor, Norberg Manufactured and Fox installed 4 rope vertical shaft friction winder	Norberg manufactured and Fox installed	Plant M & M Winder
MDR 079621PWS	Endeavour Coal Pty Ltd (Trading as: West Cliff Colliery)		30/01/2012	n/a Existing items only. New items cannot be supplied.	The Men and Materials Drift Powered Winding System at West Cliff Colliery consisting of; 2 off ASEA 700kW DC Type LAD 710M motors driving a Goninan drum winder through a 2 stage reduction gearbox; a 54 mm diameter rope c/w with attachments; man riding conveyances and other materials conveyances	A. Goninan & Co Pty Ltd and ASEA	Serial Number 3325/75
MDR 079482 PWS	Lake Coal Pty Ltd	Construction Road, VALES POINT NSW 2259	2/07/2009	n/a Existing items only. New items cannot be supplied.	Conveyor Drift Powered Winding System at Chain Valley Colliery consisting of; 75kW drum winder, 22mm diameter rope c/w with attachments; man riding conveyance and other material conveyance. This powered winding system is rated at; 4.3 tonne, control car and 16 men @ 2.0ms.	J. & A. Brown Abermain Seaham Collieries	Not stated

MDR 084279 PWS-2	MacMahon Mining Services Pty Ltd (Combined Resource Engineering)	13 Heath Street, LONSDALE SA	30/09/2010	n/a Existing items only. New items cannot be supplied.	CRE shaft sinking stage powered winding system consisting of 75kW MAN-59 Tuff Torquer 610 hoist; double deck stage; single deck stage; kibble and transportable widebody headframe	CRE	CRE MAN-59 Tuff Torquer 610
MDR 084281 PWS-1	MacMahon Mining Services Pty Ltd (Combined Resource Engineering)	13 Heath Street, LONSDALE SA	21/10/2009	n/a Existing items only. New items cannot be supplied.	CRE shaft sinking man riding powered winding system consisting of 5.5/15kW CRE-MAN-52 Tuff Torquer 450 hoist, 3 man cage; kibble and transportable widebody headframe	CRE	CRE MAN-52 Tuff Torquer 450
MDR 105991 PWS	Peak Gold Mines Pty Ltd	Hillston Road COBAR NSW 2835	5/04/2011	n/a Existing items only. New items cannot be supplied.	Main Koepple Man Ride Bulk Material Friction Powered Winding System at Peak Gold Mine consisting of: an 814kW motor coupled through a gearbox to a winding drum with interconnecting control and safety devices; four 28mm head ropes c/w attachments; two 40mm balance rope c/w attachments connecting the cage and counterweight; six 45mm guide ropes four on the cage and two on the skip; two hydraulically released spring applied braking systems for service and emergency braking with discs attached directly to each side of the winder drum. This powered winding system is rated at; Cage 26 people @ 120kg/person 3120kg, or materials 5,500kg @ 7m/s. The ore skip is rated at 11,000 kg at 12 m/s	ANI Hoskins Pty Ltd	Serial number 18337-1157
